Henry Wilbur, while driving a horse back from the golf links, was thrown from the cart in which he was riding, the wheels passing over him. Outside of a great many scratches and bruises, it is not expected that he is much hurt, although it is a little early to know definitely. The horse was scared by the wagon pressing him on a hill with the result that he became excited and ran away. Slight damage was done to the wagon. It is thought that improper harnessing was the cause.

Work on the golf course is rapidly gaining in appearance so that once more we are able to recognize same when we pass. It is expected that it will be in the best possible condition that we are able to place it in by the last of the week. Six new members have been admitted and a great deal of interest is being shown by a few. Actual measurement of the new course shows an increase of 16 yards over the old or a total of 2,560 yards. The shortest hole in the course is number two, of 165 yards, while the longest is the ninth, of 465 yards.

J. A. Moore and family motored on Saturday to Newport, N. H., returning Monday.

This paper will be published in the basement of the Sargent block and will be in charge of Mr. Welch, who recently moved his paper, The Groton Times, from Groton to Woodsville.
